

Putting Your Dental Practice First.

Since 2003, KDL has been focused on making your patient's dreams come true — by creating restorations that are as precisely crafted as they are esthetically beautiful.

We are proud to serve the Kitsap dental community with a full range of services and a dedication that has made our reputation second-to-none. Our commitment puts our dental partners first. First in service. First in quality. First in responsiveness. That commitment has made KDL Kitsap's most trusted dental lab since our founding. You can always count on Kitsap Dental Lab.

Service is our #1 Priority.

Peerless craftsmanship of restorations, crowns, bridges and implants.

On-Site Digital Milling Systems

Timeliest Turnaround

Custom Consultations

We offer a number of dental laboratory services, including restorations, dental implants, crowns, and bridges. With our on-site mill, we can fabricate an extremely robust restoration with increased efficiencies and lower material costs.

The 3 Shape E-3 Digital Scanner

**The Gold Standard in Dental Lab
Integrity, Quality & Economy.
Guaranteed.**

**Advanced Dental Technology
for Kitsap County's Finest Restorations**

The KDL Guarantee

If any product or remake is ever the fault of KDL, or the crown does not show up on time, we will do the remake at no charge to you, and the original charge will be waived. If more time has been requested by the lab at least 24 hours in advance, this policy will not apply.

Best in the industry.

For 30 years, **Roland DG** has been at the forefront of advanced machine manufacturing and offers practical and reliable technology with unmatched service and support.

The new DGSHAPE by Roland gives us the ability to produce high quality, cost-effective dental prosthetics and restorations while improving workflow efficiencies.

The DGSHAPE DWX -52 DCi was named top dental technology of the year by the Journal of Dental Tech.

A history of precision performance.

To get started with KDL, just give us a call at 360-621-0833. We'll send you a delivery kit that includes everything you will need to send us your cases. We'll pick up the case or give you a prepaid UPS shipping label.

From Bangor to Kingston, Kitsap County has always been home.

Ron Walsh has been practicing at the forefront of the dental industry as a senior dental lab technician, lab manager, and restoration consultant for over 32 years. After honing his skills as a master craftsman in the traditional processes of manual restorations, he began exploring the digital revolution that was transforming the modern dental field.

Ron scoured the industry's "best of breed" technologies, landing on the custom milling automation of 3Shape paired with Roland milling, judged an award-winning dental technology in 2018.

Ron's unsurpassed experience in the field is the result of having served more than seven years in the U.S. Navy doing both four-handed dentistry and working in a three-man lab at the military base in Bangor, Wa. Ron then left the military and has practiced throughout the Olympic Peninsula and the greater Seattle area since. In his free time, he enjoys boating, crabbing, and other outdoor activities in and around the Olympic National Forests.

Joined by wife, Trista Walsh, a wonderfully personable dental administrative specialist for more than 25 years, the firm has combined the advanced, high tech capabilities of the digital world with the warm, high-touch service philosophy of a family company. An amalgam of classic values and next-generation solutions are what you can expect from KDL Labs. KDL's family proudly supports 4H, FFA, PAWS and our local, small businesses.

TESTIMONIALS

We're proud to stand behind more good names than just our own. Here's what your colleagues have to say about KDL.

MICHAEL BROOKS, MDM

"Ron at KDL has been my 'go-to-guy' for high-end porcelain work for years. He has an outstanding eye for esthetics and color. But the best things about Ron are his personalized service and attention to detail. I can always count on Ron to be there when I need him. I highly recommend Ron for your dental laboratory needs."

— Peninsula Prosthodontics

ROSE HOLDREN, DDS

"I have been in dental practice for three decades, and have worked with a variety of labs over the years. Ron, at KDL, is by far the best dental lab technician with whom I have worked. Ron not only stays current on technologies and materials, he has an unparalleled artistic eye for esthetic detail. He is always open to feedback, and stands behind his work. It is my pleasure to have Ron be an integral part of our dental team."
